# AJDAR MAMEDOV

Tbilisi, 0144 | +995-599-064-636 | landshok35@gmail.com

## Experience

**2019-2020**
Upwork Freelance. Discord Bot in Python

In 2019, I accepted my first freelance order. It was necessary to make a discord bot with manager functions and I did it greatly.

**2020-2021**
Upwork Freelance. Telegram Bot in Python

In 2020, I accepted my second freelance order. It was necessary to make a telegram bot also with manager functions and downloading songs from Youtube. Then I took some orders and I did it greatly.

**2021-2022**
GTA 5 – Rage Multiplayer Developer

In 2021, my friends from Russia suggested creating a game server in RAGE MP using programming languages such as JavaScript, C#, and a MySQL database. I was doing the main part, namely creating functionality for players by connecting the server part and the client part. In 2022 we opened the project and people started playing. It was difficult but we managed it.
